He informed that there are new office bearers in Idukki district as well and hope to bring hockey to more schools through collective action.

He added that Malappuram is the district that has achieved more success, and better performance is expected from the new office bearers. New units were started in the Wayanad district. Need to discuss with officials.

In Kozhikode district, what is needed is an organizational framework of masters and a partnership in a way that is not harmful to hockey. He informed that if there is any need for changes in Kannur district, it should be decided collectively and the problems of the district should be resolved properly. Kasargod is the district that has given the most number of schools for hockey in recent times, thanks to the intention of having and growing the organization in Kasargod district. It is a difficult district to get senior players. Collaborate with the neighbouring districts and clubs for the services of trainers. He also informed that a letter from Kerala Hockey can be given if required to send trainers for free.
